

11/5/12-11/9/12

Group #4

Advisor: Prof. Rover

Client: Dr. Smiley-Oyen

Weeks accomplishments:

- Robert did some testing with skeleton tracking with the Kinect for Windows.
- Mitchell got the team admin rights to a lab computer so we can install the software we need to develop with the Kinect. This computer will be powerful enough to meet our needs.

Plan for coming week:

- Meet with Dr. Rover to review project plan and design document in detail.
- Work on HW4 for class where we meet with a 492 senior design team.

Pending issues:

- Waiting to hear back on team size limit for Imagine Cup from Microsoft.
