#### Project Plan Checklist:
1. Problem and need statements
2. Concept sketch
3. System block diagram
4. System description
5. Operating environment
6. User interface description
7. Requirements (functional and non-functional)
8. Market and literature survey of similar products
9. Deliverables
10. Project management:
   - Work breakdown structure
   - Resource requirements
   - Project schedule
   - Risks

#### Design Document Checklist:
1. System design:
   - System requirements
   - Functional decomposition
   - System analysis
2. Detailed design:
   - Input/output specification
   - User interface specification
   - Hardware and/or software specifications
3. Testing and Evaluation plan:
   - Test plan (unit testing, integration testing, system testing, sample test cases)
   - Simulation, modeling and/or prototyping (performance metrics, validation means, preliminary results if any)
4. Basic implementation:
   - Basic building blocks
   - Familiarity to platforms/tools
   - Simulations, if applicable
