

Role:

Derek
Cole
Jared
Rick

Accomplishments For Past Week

- Met with our advisor to find out exactly what we are going to be doing and what the importance of this project is.
- Set up a schedule that we can all access to find times that we can hold our meetings or when we will be able to have future meetings with our advisor.

Plans For Coming Week/Individual Tasks

- Over the upcoming week we need to get into the lab that we are going to be using to get familiar with the equipment and the layout of the lab.
 - The systems that we will be using are very complex and will take many weeks to be able to use effectively but we need to get used to the terminology that they use in the lab and know where the different systems can be accessed.
- We have a meeting on Monday (1-28-2013) with a grad student that is working in the lab that will show us some of the basics of the lab.

Pending Issues/Hours Spent

- At this point we do not have any issues to be solved because we are still learning what our project is going to be composed of and what we are going to have to be learning to run the systems effectively.

-Hours:

Derek: 1
Cole: 1
Jared: 1
Rick: 1

- Leader: Jared Pixley
- Communication Liason: Derek Reiser
- Webmaster: Cole Hoen
