Role:

Derek
Cole
Jared
Rick

## Accomplishments For Past Week

-Read all of the previous Sr. Design reports to better understand how the system that we will be working on is set up and how some of the software and hardware are communicating with each other.

-Got a better understanding of the high level goals for the project and what is expended for us to do thought the next two semesters.

## Plans For Coming Week/Individual Tasks

-Get into the lab again with the grad student (Aditya Ashok) to work with the systems so that we will be able to set up a base case on our own.
