

Weekly Report from 2/10/13 to 2/16/13

Group MAY13-07

Advisor: Tom Daniels

Client: Garmin

Group Members:

Scott Schroeder

Ethan Little

Tom Moser

Weekly Accomplishments:

Met for group coding instead of typical meeting

Set up coding environment on extra machines

Attempted to save depth range image frames to MPEG from camera

Plan for Next Week:

Continue to work on depth array/ image processing

Save depth image frames as MPEG for video testing

Pending Issues:

Errors when saving depth MPEG (possibly due to compression)

Individual Contributions:

Scott: Organized group coding meeting, Worked on saving depth image frames (18 hours)

Thomas: Coding meeting, Researched MPEG compression of depth image frames (16 hours)

Ethan: Coding meeting, Set up environments on extra machines, Weekly report(15 hours)
