

Weekly Report 1

August 28th, 2012 to September 3rd, 2012

General Information

Group Number: 13-25

Group Advisor: Professor Gary Tuttle

Client: Professor Gary Tuttle

Project Description

Redesign the mask set for EE432/532 class. This is semiconductor fabrication class. The currently used set is approximately 8 years old and the results have been worse lately. The group will also look at parts of the process that could be improved, such as improving the contacts.

Accomplishments

- Selected a project leader (Daniel O'Connell)
- Selected a communication leader (Levi Weiss)
- Met with client/advisor and created a general plan for the semester
- Determine software we will use (Cadence or L-Edit)

Plan for Coming Week

- Decide on a meeting time that works for everyone
- Decide group roles for the remaining members
- Start researching information regarding the project
- Create general timeline for project
- Set up email list for easier communication

Pending Issues

- None currently

Individual Contributions

- Each group member attended the meeting with the client/advisor.
