Accomplishments of Week	
<p>This week we organized our weekly meeting for Monday at 7 PM in Coover Atrium. We assigned roles and discussed strengths/weaknesses. We attempted to contact our adviser and discovered that he is unavailable for the semester. We sent email to Mani Mina to ask what our next step is to finding an advisor and received a reply that we must wait for the Senior Design leaders to figure out what to do.</p>	
Plan for coming week	
<p>We will continue to follow up with Mani Mina about the status of our advisor. This will be top priority so that we can become familiar with the terms and specifications for the project. Once we contact our new adviser, we will set up a meeting with all of us to discuss the project and the information we will need for our project plan.</p>	
Pending issues	
<p>We are still without an adviser and have not yet been in contact with our customer.</p>
