

WEEKLY REPORT

Date: 09/15/13

Group Name: May14-31

Client/Advisor: Prof. Gordon Burleigh / Ruchi Chaudhary

Attendees/Role: Andrew Upah-Leader, Michael Ore-Webmaster,
John Harding-Communication, Nicholas McLaren, Bryce Wilson

Past week accomplishments

- Continued researching information about our project: i.e. reviewing Com S 311/Cpr E 315 about graph algorithms
- Met with our advisor for the first time and learned more about the scope of our project
- Retrieved an example latitude longitude input file for our program

Plan for coming week

- Meet with our client
- Continue looking for new ideas on possible implementation in C++.
- Answer any confusions/requirements needed for the project
- Think about how everything should be divided up

Pending issues

- Finding a solid time for everyone in our group to meet with our client over a Skype call

Individual contributions

- Michael Ore: Researching data visualization, maps
- Andrew Upah: Helped organize advisor meeting, research on graph problems
- John Harding: Retrieved input files for our program,

researched graphs and algorithms

- Nicholas McLaren: Researched graph algorithms
- Bryce Wilson: Researched input data and graph algorithms

Individual hourly contribution

- Michael Ore: 5 hours (cum. 8 hours)
- Andrew Upah: 2.5 hours
- John Harding: 2 hours
- Nicholas McLaren: 2 hours
- Bryce Wilson: 2.5 hours
